CAREER OBJECTIVE :

I am a motivated IT graduate seeking an entry-level role to apply my technical skills and contribute to organizational growth. Passionate about technology, I am eager to learn, solve problems, and collaborate with teams to deliver impactful projects.

TECHNICAL SKILLS :

- **Languages:** C++, JavaScript, HTML, CSS
- **Frontend:** React.js, Tailwind CSS
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** MySQL, MongoDB
- **Developer Tools:** GitHub, VS Code
- **Other:** Object-Oriented Programming (OOP), Responsive Web Design

PERSONAL PROJECTS :

FashionFix - MERN Stack E-commerce Website | [Github](#)

- Developed a full-stack e-commerce platform using the MERN stack, enabling features such as category filtering, shopping cart, and secure Stripe payment integration.
- Built user and admin dashboards to manage orders, reviews, inventory, and visualize platform analytics, incorporating CRUD operations for products and dynamic data management.
- Implemented secure backend solutions with JWT-based authentication, role-based access control, bcrypt password hashing, and Cloudinary for efficient media management.

Weather Forecast App | [Github](#)

- Built a Weather Forecast App using React.js and the OpenWeather API to provide real-time weather updates for cities globally.
- Integrated features like city search, dynamic data display, and theme toggling to enhance usability and accessibility.
- Designed a user-friendly interface showcasing current weather conditions.

Task Tracker App | [Github](#)

- Designed and developed a responsive task tracker application using React, enabling users to manage to-do items efficiently.
- Implemented core features such as adding, updating, deleting, and toggling task completion status with a user-friendly interface.
- Styled the application using CSS for a clean and visually appealing user experience.
